

The new OSU release *Guymon* is a hard white wheat with outstanding top-end yield potential

- Great option to diversify hard-white production lineup and spread risk
- Excellent choice for high-yielding environments in and around the panhandle of Oklahoma.
- Outstanding test weight
- Good straw strength
- Good milling and baking quality
- Oklahoma bred and Oklahoma tested

Guymon is marketed through a licensing agreement with Oklahoma Genetics Incorporated

Application for Plant Variety Protection Act Title V

Oklahoma State University, in compliance with Title VI and VII of the Civil Rights Act of 1964, Executive Order 11246 as amended, Title IX of the Education Amendments of 1972, Americans with Disabilities Act of 1990, and other federal laws and regulations, does not discriminate on the basis of race, color, national origin, sex, age, religion, disability, or status as a veteran in any of its policies, practices or procedures. This includes but is not limited to admissions, employment, financial aid, and educational services.

Issued in furtherance of Cooperative Extension work, acts of May 8 and June 30, 1914, in cooperation with the U.S. Department of Agriculture, Robert Whitson, Director of Oklahoma Cooperative Extension Service, Oklahoma State University, Stillwater, Oklahoma. This publication is printed and issued by Oklahoma State University as authorized by the Dean of the Division of Agricultural Sciences and Natural Resources.

Development of *Guymon* was made possible through a cooperative effort among the following groups and organizations

OSU Wheat Improvement Team

Jeff Edwards, Brett Carver, Bob Hunger, Art Klatt, Bjorn Martin, David Porter, Patricia Rayas-Duarte, and Jeanmarie Verchot-Lubicz
